Service Learning at City Tech

Presenters:
Prof. Lydia Konecny
Prof. Tim Maldonado
Prof. Ann Steadham

Service Learning is a form of experiential learning where students and faculty collaborate with community partners to address identified needs. Students gain knowledge and skills and have the opportunity to critically reflect on their experiences. National studies show that service improves academic achievement across a wide variety of disciplines and has a positive impact on students' personal, social and cognitive outcomes.

Thursday, March 18, 2004
1:00 p.m. – 2:15 p.m.
